CINCINNATI, O., March 14-The Jackson and Walling extradition case was opened in the Circuit Court at 11 o'clock, with Judges Ewing, Smith, and o'clock, with Judges Ewing, Smith, and Cox on the bench. Jackson and Walling were not present. Attorney Shepard, for Walling, made the usual announcement of the business before the court, and ex-Judge Ermston read the petition in habeas corpus, setting forth that Jackson and Walling are unlawfully deprived of their liberty, pleading errors of law committed by Judge Buckwalter, as well as a judgment, which should not be sustained, because of lack of evidence. After the arguments, Judge Ewing announced that the court stood adjourned until Monday, and that a stay of execution would be extended until

of 93 to 77. The second resolution, which favored the election of presiding eiders, was defeated by a vote of \$5 to 75, and the third resolution, which had for its object the making of presiding elders the constitutional advisers of the Bishop, was defeated by a vote of 103 to 62.

The resolutions were under discussion three and a half hours to-day, and the debate was at times very warm and interesting. Rev. J. F. Goucher, D. D., made the principal speech in favor of the minority report, and Rev. Dr. L. T. Townsend, of Mt. Vernon church, made the strengest address in favor of the resolutions. The vote was reached shortly after 2 o'clock this afternoon.

BRITAIN IN EGYPT The Latest Development on the Line of

ADVANCE INTO THE SOUDAN.

Military Activity.

The Objective Point to Be Berber and Not Dongola, It Is Said-Defence and Not Conquest the Ex-

(Special London Letter.)
LONDON, March 14.—It is the opinion in highly-informed military circles that the objective point of the Anglo-Egyptian expedition, mention of which was made in these dispatches this week, is not Dongola, but Berber. This opinion is based on the news received from Cairo. It has been learned that the plans of the expedition has been approved by Lord Wolseley, the commander-in-chief of the British army. The government is Interested in minimizing the importance of the enterprise, and it will doubtless, when explaining the matter to the House of Commons, speak of the expedition as an Mrs. W. A. Parsons, of Vinita, and Mrs. W. A. Parsons, of Vinita, and Mrs. J. G. Luce and son, of 1013 west Main street, have gone to visit Mr. E. B. Wesley, of Port Chester, N. Y.

The Workingmen's Democratic Club, of Jackson Ward, will hold its regular meeting at Whalen's Hall, corner Seventh and Hospital streets, Monday evening. Egyptian one, arising from the necessity of checking the projected advance of the Professor Julius D. Dreher, president at Dongola, ready for an invasion of Roanoke College, is the guest for a few days of Dr. Charles M. > The object of the expedition is not the protection of Egypt, but is to make a diversion in favor of the Italians at Kassala, the city which the Italians capbesseging. This it is which caused the Cabinet to suddenly detremine upon operations which will involve considerable expenditures of money and men. This seems to be the best possible line of action to assist Italy without drawing upon the British Treasury, while at the same time it will shelve indefinitely the demands for the British evacuation of Egypt.

time it will shelve indefinitely the demands for the British evacuation of Egypt.

The main cost of the expedition will fall upon the Egyptian Treasury, which is now in a condition to bear a financial strain. The financial report issued yesterday by Lord Cromer, the British Diplomatic Agent in Egypt, shows for 185 a revenue of fl.e8,000 in excess of the expenditures. This is a most striking proof of the prosperity of the country under British administration. France may protest against the use of this surplus for a war to reconquer the Soudan, but her protest will be isolated. No other Power than Great Britain need regard it, and no other Power will join in a protest against the expedition.

General Kitchener, Sirdar of the Egyptian army, will command the expedition, which will consist chiefly of Egyptian troops, These, however, will be strengthened by 1,200 British troops under General Henderson, staff-major of the army of occupation. Reinforcements from Main will keep the British garrisons in Egypt up to their present strength. The native army will be commanded almost exclusively by British officers. Fighting is certain. The Mahdi has a large force at Dongola, and this will undoubtedly be formidably increased before the expedition has time to get within striking distance.

prove a severe test of its courage. It may be attended by disaster.

The Angio-Egyptian expedition has the unstinted approval of the Conservatives and Liberal Unionists, the hesitating support of the Liberals, and the fleree opposition of the Radicals. A statement relative to the matter will be made in the House of Commons on Monday by the Right Hon, George Curzon, parliamentary Secretary of the Foreign Office, and this will lead to the warmest debate of the session, which will be followed by every device of obstruction. In gleaning from official opinion, it is found that, the line of defence of the government will be a denial that the expedition aims at a reconquest of any part of the Soudan, and a statement that the British troops will be employed only to guard the line, while the troops advance to old Donnola, making their headquarters at El Ordeh (New Dongola). It is stated this afternoon that the Egyptian troops will not go beyond Old Dongola. Defence, not conquest, will be the substance of the government's explanations. Assurances of this sort, however, will deceive no one. nent's explanations. Assur-

of this sort, however, will deceive no one. Plan OF EXPEDITION.

According to Cairo advices, the 12,000 Expitan troops who will take part in the expedition will begin to advance immediately. Part of them will mare along the Nile, while the others will proceed in light-draught steamers up the river, which is now so low that in many places camel traffic must largely be used. Field-Marshal Lord Wolseley and General Kitchener do not seem to place much trust in the Egyptian troops. It is not expected that the dervishes will make a stand at El Ordeh, but, in case of fighting the British troops will be ready to giving this support, a railway will be constructed for loo miles southward from Wady Haifa, and river steamers, armed with guns, will be stationed between the point where the railway will terminate and El Ordeh. The Nile, at this part of its course, is navigable for light-draught steamers for the greater part of the way. The troops, if the real designs of the government are carried out, will advance in force up the Nile in August next.

send special correspondents with the expedition.

It is generally conceded that the campaign will be a big undertaicing, though the government is reluctant to disclose the whole scheme.

Simultaneously with the Dongola expedition, a Belgian-Congo Free State force, led by Baron Dhanis, will attack the dervishes on the upper Nile. Acting with the consent of the British Foreign Office. Baron Dhanis has recruited at Lagos 630 natives, who have been drilled by British officers. These natives, who are splendid fighters, and who will go wherever they are led without fear of danger, will join the Belgian and Congo Free State force. The Congo State has chartered thirty steamers, which will convey the expedition as far as possible up the Congo river.

ANXIETY IN CAIRO.

LONDON, March 14.—A dispatch from Cairo to the Globe says that as the fast of Ramadan will end on March 15th, it is probable that the dervishes will at once thereafter alvance northwards from Dongola. A great deal of anxiety is felt in Cairo over the situation, and the military authorities were in conference all day yesterday for the purpose of considering what steps should be taken.

Baron de Courcel, French Ambassador to Great Britain, crossed the Channel from Dover to Calais this forencon, on his way to Paris, to report to his government the result of a prolonged interview which he had with Lord Salisbury last evening. It is believed that the conference had especial reference to Egypt.

EVERY POOL-ROOM HIT.

NEW ORLEANS, LA., March 14.—There was a fine piece of work done at the race-track here to-day, by which every pool-room in the country was hit. The sixth and last race of the day was won by Ping, but the official result was changed by the telegraph operator at the race-track to read that Royal Nettie had come under the wire first. She was a 19-to-1 shot, and this deliberate falsification of the result by the operator was no doubt the consummation of a carefully-laid plan by himself and comfederates at various points. It is stated by telegraph experts that the wire formally of the place where they were buried, a lasso over their heads and pulled at it by the ends. In a few moments they were dragged on the earth without pity to the place where they were buried. HORRIBLE, DISCOVERY.

HORRIBLE DISCOVERY.

"Providence has not willed that so much iniquity should remain hidden forever, in the hurry the grave where these two innocent men were buried was not dug deep enough, and part of the rope with which they were choked to death remained outside. A neighbor looking for a lost cow saw the rope, took hold of it, and on pulling, disinterred the head of one of the victims. He was terror-stricken, and at once gave notice to the guarda civile and the Judge. These officers soon found out the men had been killed by order of Colonel Jull, and therefore proceedings were suspended.

"The neighbory and all the civil and military authorities know everything that has been related here, but such is the state of affairs on this island that General Weyler had no objection to appointing this monster, Colonel Jull, Military Governor of Matanzas. Such deeds as those enumerated are common.

GOMEZ AND MACEO.

HABANA, March 14th, via KEY WEST, March 14th.—Wednesday, Gomez and Maceo, who were in the Province of Matanzas, separated, Gemez remaining in the vicinity of Jovellanos, while Maceo moved west. The government troops directed their attention to Maceo, who showed a tendency to retreat towards Habana. The columns commanded by Generals Bernal and Prats, and Coloneis Vicuna. Inclan. Tort, and Molina, and the Almanzas battalion formed a combination to encircle Maceo and prevent his entrance into Habana Province. The official announcement was made at the Palace Thursday of the combination of the seven columns. The result was anxiously waited. Yesterday, the government announced that Maceo declined an engagement and entered Habana Province.

From other sources it is learned that Maceo discovered the combination, and, with Lacret and Barderias's forces, numbering over 16,000, fell upon the Almanza battalion, which happened to be a raw one, recently arrived from Sapin, broke it to pieces near Los Pulos, rode over the remains, and crossed the Habana line, leaving the government combination in the rear.

the remains, and crossed the Habana line, leaving the government combination in the rear.

Maceo passed south of Guinez, struck the railroad north of Batabano, and caused consternation in the block-houses along the strong line. In the vicinity of Poseo Redondo he burned two bridges, and was last reported going in the direction of the Pinar del Rio line.

General Weyler is very angry over the failure of the columns to prevent Maceo's return, and, especially since he had just proclaimed the province free of insurgents. The government troops are now being rushed west, in pursuit of Maceo, and the strong line is again being strengthened.

NO IMPROVEMENT.

NO IMPROVEMENT.

There is no improvement in the situation in other provinces. The Spanish hold only three towns in the western province-Pinar del Rio, Candelaria, and Artemisia. In Matanzas many thousand actes of cane have been burned in the last ten days, railroads destroyed, and towns attacked. There have been encounters every day. The rebels are more numerous than ever, The same is true of Santa Clara and Santiago provinces. General Weyler's recent decrees are being rigidly enforced, causing panic in many sections.

rigidly enforced, causing panic in many sections.

Walter Grant Dygeart, the American arrested, and supposed to be the rebel leader El Inglesito, is still in fail at Guinez. He is an innocent citizen. It is a case of mistaken identity. El Inglesito has been reported in two fights since Dygeart's arrest.

Quintana, the American citizens taken at Guatao, has not yet been released. The government investigation of the massacre has been dropped. The truth of the story published in the United States has not been denied. The Marquis de Cervera, who sent out the column which committed the atrocities, was confirmed as Alcalde of Mariano last Thursday.

"Las Varas, February 15, 1856.

"Dear Friend!

"A great battle was fought on the 5th of this month at Villa Clara, in Viajacas of this month at Villa Clara, in Viajacas

Gordas. It lasted five hours in the open field. The enemy's forces were more than 1.400 men. I fought with a thousand, and the Spanish troops were unable to advance one yard from their square. The result of the battle was, on our side, soven killed and fifty-sight wounded; thirty-five slightly wounded. A few horses were killed and wounded, as I gave the battle dismounted. The enemy, I know positively, had 255 losses; sixty-odd wounded. We captured horses, saddles, blankets, and other articles.

"I have to lament the death of Major Aurelio Noy, who died the day afterward, from a wound received in a charge. The battle has been the greatest and most considerable in Las Villas. The war is powerful in the western provinces. In the rest of the island, the enemy is filed with fear, and has done nothing in this campaign, notwithstanding his lying declaration. "SERAFIN SANCHES."

The Match Played by Cable Won by America.

NEW YORK, March 14.-The interna tional chess match between Great Britain, Ireland, and the United States was finished to-day, and America won by 4% finished to-day, and America won by 4½ games. The proceedings to-day were similar to those of yesterday, the moves being made pretty rapidly. The spectators, numbering upwards of 1,000, enjoyed the match thoroughly, and at the conclusion there was a cheer such as has never been heard before at a chees game. The final score is as follows:

GREAT BRITAIN.

Details: Pillsbury, who had lost games right along, to-day fought on gamely, but had finally to resign after 66 moves. Showalter beat form in capital styes after 64 moves. Bird went down before Burille after 48 moves, the former being prettily trapped. Harry disposed of Tinsicy in beautiful style after 67 moves. The games between Hymes and Locock, Hodges and Mills, and Delmar and Atkins were drawn after 41, 40, and 41 moves, respectively. Jackson brilliantly outplayed Baird, and won after 33 moves.

ENTHUSIASM IN ENGLAND.

that the game was well won. Mr. E. M. Jackson, the winner of the game, is still a young man. A few years ago he made his first public appearance in the Oxford University eight, and he has since won the championship of the St. George's Chess Club. The playing between Piltsbury and Blackburn was followed with keen interest, and at 420 P. M. it was thought that Pillsbury would draw. About the same time Bird succumbed to a pretty combination by Burdile, who thereby won the first game for America, leaving the match at an interesting stage.

B. & O. R. R. REORGANIZATION. Baltimore Committee Formed Solely

to Protect Home Interests. BALTIMORE, MD., March 14.—The ex-clusively-Baltimorean committee to all in the reorganization of the Baltimore and Ohio railroad, was added to to-day by the appointment of ex-Judge William A. Fisher. He was named at the request of Miss Mary Garrett and others, repre-senting 35,000 shares of stock, and large holdings of bonds of the Baltimore and Ohio Company.

other, steps would at once be taken to have him or them removed, and other receivers appointed.

It is estimated that the Baltimore committee now controls \$2,000,000 of the Baltimore and Ohlo securities. Almost the entire issues of first and second preferred stock are held here, and it is estimated that fully 100,000 shares out of the 250,000 shares of common stock, in addition to between \$15,000,000 and \$20,000,000 in bonds, are held in this city.

The committee will meet early next week to discuss the situation, but will probably not formulate a plan of reorganization for at least a year. A well-known financier, who took an active part in the formation of the Baltimore committee, said: "The Baltimore stock- and bondholders of the Baltimore and Ohlo Raliroad Company deferred acting because they had been led to believe that their interests would be protected by the New York committee. That committee has failed to recognize us in any manner, and has otherwise broken faith with us. We have formed this committee for mutual protection, and will protect our rights at any cost."

Steamer Bermuda Possibly off with Cuban Expedition.

NEW YORK, March 14.—At midnight to-night it was whispered about that the steamer Bermuda, which fulled in getting away with a Cuban fillowistering expedition a short time ago, was to make another attempt to steal away from her anchorage during the night or early Sunday morning, Groups of dark-complexioned men were seen wending their way toward a tugboat, located at Pier A, Northriver, and a boatman was said to be waiting to take two engineers out to the Bermuda, which lies about two miles south of Liberty Island.

The lighter Strannhan, which had en board the arms and ammunition which the latter unsuccessfully attempted to place on board the Bermuda when that vessel was seized by the United States authorities recently, was said to have been engaged to-day in transferring her cargo to the steamer.

It was also said that late to-night the Bermuda had a full head of steam on, and was ready to slip out of the harbor at any moment.

The Bermuda is cleared for Vera Cruz, and is in the charge of Captain O'Hrien. She has on board all the arms and ammunition which were seized at the time of the raid, and which were afterwards returned.

of the raid, and which were alterwards returned.

About 8:30 o'clock to-night, ten or fifteen men left left Liberty Island in small boats. The men carried packages and bundles. It was rumored late to-night that the German steamer Schleswig, which sails between New York and Haitlan ports, and which left her pier about 5 o'clock to-night, had on board some fifty men, whom she will transfer to the Bermuda outside of the three-mile limit, where she is now lying, waiting for the Bermuda.

CORBETT-FITZ BATTLE.

Status of "Gentleman Jim" with London Club.

NEW YORK, March 14.—The beavy-weight championship battle of the world is just as much in embryo as ever. Corbett has signed articles of agreement purporting to be with the National Sporting Club, of London, This organization has repudiated the articles, and sticks to its original declaration. This is that no proposition in which Corbett's name involved will be seriously entertained until the ex-Champion has withdrawn his remarks made about the National Sporting Club, and appoingized to the members.

DR. NOBLE CHAIRMAN The State Executive Committee Desig-

nates Him to Succeed Mr. Murpay.

The Allan People Will Hold One at Wilkinson Hall and the Lamb Followers at Old-Market-Views of the

Dr. P. H. C. Noble is new chairman of the Republican Committee of Richmond, having been appointed to this position at a meeting of the State Executive Committee held in Norfolk yesterday, at which Colonel Lamb, Colonel Asa Rogers, and Mr. A. H. Martin were present. General Stith Boiling was unable to attend the session, having to go to Washington on business.

The report put in circulation yester day that Dr. Noble had gone to Norfolk to seek the place, and the alleged interview between him and Colonel Lamb, published here, the former last night emphatically denied. He said he had not been out of the city during the day, and the interview, of course, was all a "fake." He had received a telegram from Colonel Lamb about 6 o'clock, informing him that he had been appointed to the city chairmanship, and it was somewhat of a surprise to him. He was not prepared to say then just when he would appoint the members of his committee. It would be very shortly, however, he thought.

MR. ALLAN'S POSITION.

Mr. Edgar Allan was seen by a Dispatch

reporter last night, and being asked how he regarded the appointment of Dr. Noble as city chairman, he said: "It Dr. Noble has been appointed chairman, Colonel Lamb has succeeded in finding some one who is not personally friendly to me, as he supposed he had when he appointed Mr. Murphy. Dr. Noble has been in Richmond such a short time since he gave up his practice in Washington that he has hardly had an opportunity to find out the personnel of the Ricking crowd, which he is to lead, it they can again be gathered together. He is a sober man himself, and will, therehe regarded the appointment of Dr. is a sober man himself, and will, therefore, not be in congenial company with
the other two white men who have been
the recognized Lamb leaders up to this
time. Of course, I shall take no more
notice of Colonel Lamb's second abortive
attempt to disorganize the Republican
party in this city, than I did of the
first. He insulted Mr. Murphy when
he could not longer use him, and degraded himself by attempting in vulgar
language to array an Irish Republican language to array an Irish Republican against an English Republican; and will soon forfeit the respect of decent men, who are still his friends, if he will only was are stin his friends, if he will only continue in that course, and it will not be long. I take it, before he will be calling Dr. P. H. C. Noble, Dr. I. G. Noble, if he finds his bidding is not in all things obeyed. I only hope that the Republican party may not by Colonel Lamb's methods become a wreck."

MAY REF. TWO CONTENTIONS.

MAY BE TWO CONVENTIONS MAY BE TWO CONVENTIONS

Altogether, from what can be learned, things seem to be in a nice muddle in Republican circles in this city. It looks now as if two city conventions will be held here next Friday—one by the Lamb faction, and the other by the Allanites, Precinct meetings will be held Thursday night to elect delegates to the city convention, and at the latter delegates will vention, and at the latter delegates will be elected to the district convention, which meets here Wednesday, April 22d. At the meeting of this body two dele-gates will be elected to the national con-vention, and seventy-five to the State

IN THE LAMB CAMP.

One of the Lamb followers said last night that his faction had been willing and were willing to submit the question to a Republican primary, and they were started out to reorganize the respective to a Republican primary, and they were its own lines, and to ignore local interests in all matters pertaining to the rehabilitation of the Ealtimore committee, it is said, to precipitate matters, but, rather, to move with deliberation receivers of in regard to the present receivers of the road, it is understood that the new committee thinks they have shown a perhe, "we are all right, and the district is all that we have to look after now." Speaking of the city convention to be held here Friday afternoon, this man said he and those who had not bolted the State chairman's authority were only going ahead with the work as mapped out by the latter. The city convention had been called by Mr. Allan, he said, when the latter held his commission as city chairman, and was vested with that power. The new chairman, Mr. Murphy, had not interfered with this action, and had only changed the place of meeting from Wilkinson's Hall to Old Market Hall.
